

Library has file ^{4/8/91} on nuclear waste

Editor of The Register Citizen:

On April 2, The Register Citizen printed an op ed page column by me on the subject of radioactive waste. Production and storage of radioactive waste is a major concern to many citizens. The issue is not complex but is made to seem so in order to discourage citizens from participating in the dialogue, voicing their opinions and spearheading change.

To assist citizens I have compiled a file containing material which deals with the radioactive waste issue. This file is available for citizens to read at the Beardsley and Memorial Library in Winsted and it will be updated.

I urge all citizens to become informed on the crucial issue of radioactive waste because it affects our lives and the lives of generations to follow.
